An employer may not recover surplus assets in a transaction in which it splits an overfunded defined benefit plan into two defined benefit plans, terminates one of the plans and receives the excess assets ("spinoff/ termination" transaction), unless the following conditions are satisfied: (i) the benefits of all employees (including those employees covered by the ongoing plan) must be fully vested and nonforfeitable as of the date of termination; (ii) all benefits accrued as of the date of termination for all employees (including those employees covered by the ongoing plan) must be provided for by the purchase of guaranteed annuity contracts; and (iii) in the case of the ongoing plan, the funding method for such plan must be changed on the date of termination by combining and offsetting amortization bases in accordance with Code section 412(b)(4). The amortization period for this base will be the lesser of the combined amortization period or the weighted average future remaining working lifetime of all covered employees. The employer must request and obtain IRS approval for this change in funding method. Please provide information demonstrating whether the conditions listed above have been satisfied. Implementation Guidelines, Treasury News Release dated May 24, 1984.
